Ms. Frances Cook, Chief Executive  

**RESEARCH AND THESIS**

**INTERNACIONAL**
Ms. Frances Cook, Chief Executive of the Howard League for Penal Reform in the United Kingdom, introduces us to the English penal system where children are subjected to harsh conditions in custody. She dismantles the very authoritarian and punishable model that does not contemplate the psychological, social, and educative specific needs of children. This disturbing self-injuring, death, and recidivism data in custody reduce. She also advocates reducing the criminal age liability from 10 to 14 years old and reminds us that the Convention of the UN says that custody should only be used for the shortest possible time.

According to our main activities and objectives, the International Juvenile Justice Observatory wants to give the opportunity to researchers and PhD students to have access to our international communication platform. To publish on our website your thesis, research papers regarding juvenile justice and the situation of minors in conflict with the law, please press the following link.
