Switzerland. 10th Annual meeting. Interagency Panel on Juvenile Justice (IPJJ)

IJJO

In June the 10th Annual Meeting of the Inter-institutional Panel on Juvenile Justice (IPJJ) took place in Sion (Switzerland). This is a coordination panel on technical counselling that was established by the United Nations Economic and Social Council in its centred resolution 1997/30. During this meeting, the members highlighted the importance of developing a common approach on the development of justice adapted to minors in conflict with the law, victims and crime witnesses. COLLABORATION FORUM

Recent Studies in Europe agree on the high prevalence of mental disorders of young offenders. In the daily clinical practice there are great social, psychological and psychiatric differences which give a big heterogeneity to the group of young people who commit illegal acts. Therefore it is of fundamental importance that the minor receives an individual evaluation and intervention. In order to offer the best reintegration alternatives and possibilities and to allow the development of mental health treatment systems in youth justice, it is essential to carry out an individual evaluation through a psychopathological screening of minors in conflict with the law.

What kinds of specific mental health units or resources do there exist in your country for minor offenders with mental disorders?
